PART 1

### Global Carbon Council: 1st ICAO-Accredited Carbon Program in the Global South

#### Details and Overview

In the Global South, GCC is the only international program fully accredited by ICAO's CORSIA. This session will discuss GCC's significant contributions to climate change mitigation.

#### Key highlights

The session will spotlight GCC's projects, standards and framework for voluntary carbon markets to catalyze, enhance and leverage climate change mitigation finance globally and especially for the MENA region.

#### Speakers

INTRODUCTION

**DR. YOUSEF M. ALHORR**  
Founding Chairman  
Gulf Organisation for  
Research & development  
(GORD)

**DR. MAHMOUD R. FATH-ALLAH**  
Director of the department of  
Environmental, Meteorological  
Affairs (EMA); Economic Sector,  
League of Arab States

**DR. MAGED MAHMOUD**  
Technical Director  
Region Center for Renewable  
Energy and Energy Efficiency  
(RCREEE)

LECTURER

**MR. KISHOR RAJHANSA**  
Chief Operations Officer,  
Global Carbon Council  
(GCC)

PART 2

### Decarbonization of the Building Sector: approaches and tools for implementation

#### Details and Overview

Energy simulation tools are crucial for modeling and analyzing building energy performance to reduce energy consumption and carbon emissions.

#### Key highlights

The session will focus on the role of these tools in supporting the transition to low-carbon buildings, through optimization of systems and designs whether for new constructions or retrofitting existing buildings.
