

MED-TSO & LAS COOPERATION

Co-funded by
the European Union

Meeting with LAS-Energy Dept. 30 January 2024

Challenges

- **Insufficient understanding of integration benefits**
- Reluctance to develop national and regional markets

Priorities

- Focus on necessary enablers in national reforms, **capacity building, and knowledge sharing**, highlighting the importance of technical steps

Suggestions

- Knowledge sharing between LAS-TSO Committee and Med-TSO
- Support for Interconnected Electricity Exchange Zones/Pathfinder projects

Synergies

- Knowledge sharing
- Coordination between IEEZ and Pathfinder pilot projects
- **Potential MoU for cooperation**

- **Interconnected Electricity Exchange Zones vs Pathfinder (Eastern and Western Med zones)**
- **Long term Scenarios: key data**
- **Data exchange (DBMED)**
- **Adequacy (tools, methodology)**
- **Knowledge sharing programmes**
- **Mediterranean Electricity Interconnection Perspectives vs Arab Masterplan (approach, tools methodologies)**

THANK YOU!
